BEYOND PROTECTION 

DAYCARE

GARDIEN DAYCARE

INTRODUCTION

Gardien Daycare is an easy to use software application designed with the main purpose of facilitating the daily management tasks of a daycare center such as: track daily assistance of a child; proactive alerts & notifications to care-givers, among many others.

FEATURES

- ⇒ Easy & Quick digital check in/out
- ⇒ Authorize delivery & retrieval contacts
- ⇒ Personalized communication
- ⇒ Automatic notifications
 - ◆ SMS & Emails
- ⇒ Centralized record keeping

HOW IT WORKS

The application allows the daycare personnel to create a profile for each child. Once the profile is created, the daycare can use that information to set automatic alerts such as: child not been delivered, child delivery and pick up.

Also, the application will allow to communicate personal notes, photos, and general daycare activities with the caregiver via SMS and/or Email.

BENEFITS

- ⇒ Reduced paperwork
- ⇒ No special setup required
- ⇒ Prevents unauthorized child retrieval
- ⇒ Peace of mind

PRIVACY & DATA PROTECTION

- ⇒ End to End encryption
- ⇒ Only visible to daycare
- ⇒ Approval from parents

OUR COMPANY

We believe that kids are our biggest treasure. They are not only our future, but the little ones we take care the most and for which we strive forward every day. However, under all the stress we live today sometimes there is vulnerability in us, not because we want, it just happens.

Established in 2013, Momentum Creative Labs LLC has been dedicated to create solutions that can assist us in the everyday things. Simple solutions using today's technological advances without getting in our way. With that on mind we created Gardien Daycare, to assist us and make sure we never forget the unforgettable.
